## Choosing the Proper Isolation Gown

Isolation gown's purpose is to help protect your frontline caregivers and staff from infectious droplets, fluid penetration and solids, and help prevent the transfer of micro-organisms to vulnerable residents. With the setting usage guidelines and materials description below, you can choose which is the right gown for your needs.

### Materials Description

#### SMS Material

Balanced mix of protection and comfort.

Strong and breathable, Spunbond/Meltblown/Spunbond (SMS) is a multi-layer fabric composed of inner layers of meltblown polypropylene between outer layers of spunbond polypropylene that is ideal for extended wear. Light/medium weight SMS is appropriate for low amounts of fluid and heavy weight SMS may be appropriate for moderate contact with fluids.

### AAMI PB70 Guidelines

Barrier Performance	Test Method	Test Definition	Requirement	Anticipated Fluid Exposure
AAMI Level 1	Water resistance: Impact penetration AATCC 42	AATCC 42 Measures the resistance of fabrics to the liquid penetration of water by impact	Water impact $\leq 4.5$ g	Minimal fluid levels
AAMI Level 2	Water resistance: Impact penetration AATCC 42  Water resistance: Hydrostatic pressure AATCC 127	AATCC 42 Measures the resistance of fabrics to the liquid penetration of water by impact  AATCC 127 Measures the resistance of fabrics to the liquid penetration of water by impact under constant and increasing hydrostatic pressure	Spray impact $\leq 1.0$ g Hydrostatic Pressure $\geq 20$ cm	Low fluid levels

All of MedicA+ gowns are manufactured according to AAMI standards. Please use our *Style Guide* to select the gown that meet your requirements.

- Ear Loop:  
Nylon String
- Breathing Valve:  
N/A

### Use For

- Medical Clinics and Operating Rooms.
- Laboratory Procedures.
- Infection Control Requirements.
- Emergency Planning and Preparedness.

## About Us

MedicA+, a division of A+ School & Career Apparel, entered the Personal Protective Equipment (PPE) space to fill the need of a reliable manufacturer with a stellar reputation based on the collective experience and know-how of our people, domestic production capacity, an extensive network of nationwide and trustworthy raw material partners, superior service, consistency, quick delivery and commitment to inventory depth.

Above elements are all backed by a trusted brand name dating back for decades. With this, as the pandemic sweeps through our nation, we instantly knew we were able to set ourselves apart from the other healthcare suppliers that have emerged.

We genuinely wanted to contribute to a good cause by producing top quality USA-made products that our frontline workers trust and can be proud of. That's the family business philosophy that's instilled in our hearts, and that's what we've always done.

MedicA+'s PPE initiative was a natural fit, and our greatest intent is to supply unparalleled and long-lasting products that serve the sole purposes of protecting frontline workers and keeping our beloved communities safe. Quite simply, there was a very important need to be filled, and we filled it!

Since the beginning of the pandemic, we have been able to service several large hospitals, healthcare facilities and other industries, and we would love the honor to be able to support and protect you too!

Your Safety is our Priority!
